Elements

Modular Track-Mounted Storage & Visual Display Tiles

A wide range of base, wall and tall modular storage units that can be mixed and matched to meet your required storage needs.

Transition

Track-Mounted Shelving & Storage Components

A shelving line that allows you to easily add, subtract and reconfigure by adding or subtracting transition components.

Ewall

Track-Mounted, Wall-mounted or Freestanding Self-Contained Design

Units consolidate Video Monitor, Whiteboard and Storage to free up floor space for more learners.

Tempo

Musical Instrument Storage

Music storage solutions. Open, solid doors, or wire grille compartment doors & modules.

Definitions

Wall-mounted Casegoods modular unit design

Traditional casegood solutions. Drawer, cupboard, open, wardrobe and locker solutions.

Contact Us & More

Warranty:
All standard products manufactured by Mediatechnologies LLC, unless otherwise covered by a product specific guarantee and or warranty, are guaranteed against defective material and workmanship for a period of five (5) years from the date of purchase. Fabrics are warrantied for period of one (1) year.

Mediatechnologies LLC does not warranty any product or hardware which has been installed incorrectly, exposed to high humidity, moisture and extreme temperatures for long periods, excessive loads, misuse, abuse or was not manufactured by Mediatechnologies LLC.

We will repair or replace, at our discretion, any defective item without cost to our customer. This is customer's sole and exclusive remedy against us. No delay in shipment or delivery shall give rise to any liability for damages whatsoever. We are not liable for defects caused by customer or any third party. Customer is not authorized to make any repairs whatsoever or to deduct any amount from the purchase price.

In no event shall our liability under this warranty exceed the purchase price. In no event shall we be liable for incidental, special or consequential damages. We disclaim all other warranties, express or implied, as to any matter whatsoever, including without limitation, quality, design, performance, specifications, samples, condition, merchantability and fitness for any particular purpose. No action may be commenced for breach of this warranty more than six months after the cause of action accrues and any such action may only be brought in the county of Oceana, State of Michigan.

Shipping:

All orders will be shipped F.O.B. shipping point with freight charged collect. Shipping weights listed are net.

Shipments will be routed "best way" or as specified. Instructions will be followed as closely as possible, however, Mediatechnologies reserves the right to make changes due to local conditions or other circumstances.

Legal title to merchandise passes to the buyer upon acceptance by the carrier. All cartons must be carefully inspected at the time of delivery. Visible damage should be noted on the delivery receipt. In the case of concealed damage, the carrier must be notified within ten (10) days. It is the buyer's obligation to seek recourse against the shipper.

Shipments should be inspected upon receipt for shortages. Shortages must be reported to Mediatechnologies in writing within fifteen (15) days of receipt.

Shipping Address
892 Industrial Park Dr.
Shelby, MI 49455

Our Promise:

Mediatechnologies believes in value that is built to last, right here in the USA. Our products are manufactured on-site and provide skilled trades careers to our small community. You can count on a quality experience with Mediatechnologies from concept through delivery and for years afterword.

Making the case for
TRACK-MOUNTED CASEWORK.

Flexibility is a necessity.
We already know about the flexibility benefits of mobile furniture in the center of the room. Let's re-frame the way we look at perimeter storage - casework.

Let's make casework flexible!

8 great reasons to choose Elements® and Transitions.

1. **Ability to Repurpose.** Easily. Fixed casework is no longer fixed and can be used as needed.
2. **Flooring installation can be wall-to-wall.** This means space reconfiguration without the coordination of other trades. No having to match 10 year old flooring or being forced to replace it.
3. **Elements is 6" off the floor.** Easy to clean under. Room to store extra goodies underneath (like shoes or totes). 6 inches of flood protection. Easily removed and stored if evacuation is necessary.
4. **You can buy incrementally.** Avoid construction delays and budget constraints. You can phase your projects without being delayed or forced to make last minute concessions. You can always add more as needed.
5. **Thoughtful design by room.** Design spaces based on teacher needs. No cookie cutter design. No wasted money on underutilized casework.
6. **Population shifts? Schools closing or expanding in the future?** Elements can adapt to changes in classroom and school population.
7. **Need to remove casework for any reason?** Do it with your cabinet jack! Don't have one? We can help you with that.
8. **Shift tax and installation costs to furniture.*** Assigning casework dollars to F/E will allow more flexibility in furniture specifications as well as construction. *See our costing worksheet on page 6 for guideposts in construction and furniture budgets.

Easy to Reconfigure

Track mounted casegoods and mobile furniture make reconfiguring and repurposing simple, quick and clean. Activity boards, marker board and tack board panels are also quick and easy to move on the track.

Complete Solution

Find casegoods, display panels and accessories for every room from the office to the classroom.

Lower Lifetime Cost

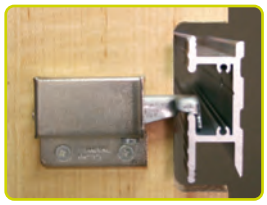
Elements products can be removed from their original location with casegoods, display panels and walls undamaged. Products no longer needed can be stored for future repurposing.

Elements® is a comprehensive furnishing solution allowing you to reconfigure rooms, re-using rather than replacing casework, extending the value and return of your investment.

On your Elements track you can hang:

- Base, wall and tall cabinets including sink bases
- Lockers and special purpose cabinets, marker board, tack board and slat wall display
- Perimeter worksurfaces for computer labs
- Workspace office furniture

The aluminum track mounts to the wall and is the key to the Elements furnishing system



Pre-installed cabinet brackets secure the furnishings to the track

Tiles set into the upper & lower track, secured with a set screw

Track Mounted Features & Benefits...

- Componentized System: The track accommodates a variety of cabinets, marker and tack boards and components to create work spaces. As your needs change your space can change, add, subtract or multiply.
- Planning: You can put your crystal ball away, you won't need it to figure out what your needs will be in ten years. Simply change your space to meet your needs as they change.
- Components are interchangeable from room to room or building to building without damaging the walls or components.
- Repurposing a room or adding components to an existing space is simple.
- Elements cabinets are standard without a toe, allowing for floors to be finished wall to wall, so you will be ready to change your space as your needs change. The 6" open toe area not only makes it easy to keep the floor clean, but it limits hidden mold or mildew that sometimes is present under traditional casework.
- The track is mounted at standard heights, so it is ready to accept any of the above items, putting you in charge of your future!
- Freestanding or mobile items can be mixed with your track mounted installation.
- The Elements track is Aluminum Alloy - 6063-T6 - Clear Satin Anodized.
- The track can be mounted to any structural wall.
- A finite element analysis (FEA) on the track shows that, attached to the wall, it would take 3,200 lbs. load at any point before it would bend.
- The cabinet hangers are rated 220 lbs. each. The cabinets are rated to hold 100 lbs. per lineal foot.
- 30" deep or deeper base or tall cabinets can be track mounted but require a support toe or support legs.
- Elements cabinets are standard with finished ends, allowing you to move them without considering where you are going to put them.
- To remove cabinets you need a screw driver and a helper. All you do is loosen the cabinet hanger and lift the cabinet off the track.
- If you have an Elements Lift and a Screw Driver ONE person can move a fully loaded cabinet.
- Elements finish options: Choose from our standard TFL finishes or specify any Formica®, or Wilsonart® HPL.

Elements

Elements® & Standard Casework Cost Comparative Worksheet

	Standard Casework Construction	Elements Modular Construction	Cost	
Delivered Product Cost (with Freight)	**$47,763.00	$52, 781.07	$5,018.07	
Sold as Construction	**Cost**	**Sold as F/E**	**Savings**	**Notes**
Sales Tax*	$3,348.00	$0	$(3,348.00)	No sales tax paid on F/E
Construction Manager	$3,851.81	$0	$(3,851.81)	
General Contractor	$3,633.78	$0	$(3,633.78)	
Installation*	$9,452.00	$9,452.00	$0	Prevailing wages aren't considered
Total Procurement Cost	**$68,048.59**	**$62,233.07**	**$(5,815.52)**	**Approximately 9% savings**
Other Cost Considerations Associated with Modular vs. Permanent Casework:				
Reconfigurability	n/a	100%		Paint touch up will be needed
Flooring Cost	100%	n/a		
Cabinet Jack	n/a	$2819 (List)		

*The example above makes a few assumptions. It assumes a General Contractor cost. It also assumes that the construction is taking place in a State with a sales tax (Like Georgia's 6% tax, which changes by county) on construction only, no prevailing wage or tax for F/E to consider.

Even without those assumptions, the great benefit of Elements® modular casework is that its quality construction ensures it will last for years (decades actually). Elements® carries a standard 5-year warranty. Whereas, standard casework only carries a 1-year warranty. Elements® grants the specifying agent quality assurance once the job is complete. Additionally, as the "Other Cost Considerations" section of the chart indicates, the modular design makes it infinitely reconfigurable (without the use of a sledgehammer), and there is no flooring cost associated with reconfiguration because there is a 6" space between the floor and the bottom of Elements cabinets.

**The example above reflects the following" For casework construction - TFL Case with HPL exterior faces, top and face fillers. For Elements® construction - TFL case interior and exterior (finish grade) with HPL fronts, no top and face fillers.

From top to bottom, choosing Elements® is a decision for a bright and flexible future!

Upper and lower horizontal mounting tracks are required for proper installation of Elements® Tiles. Tiles mount between the upper and lower tracks. They rest on the lower horizontal track and are secured with HTNSS available set screws see **Elements Track Installation Hardware.**

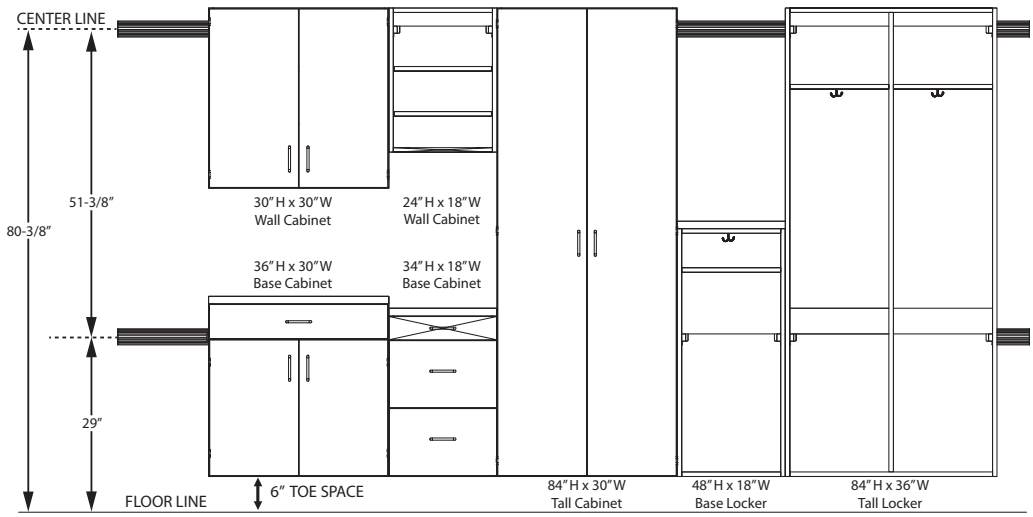
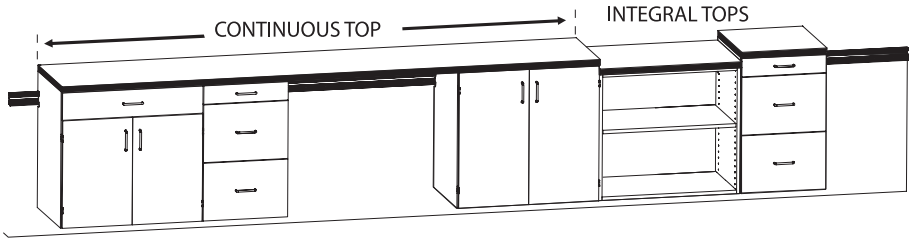
ELEMENTS OPTIONS

Mounting Elevations

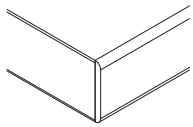




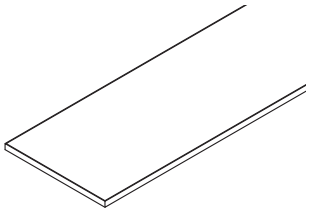
Integral vs Continuous Top

- Elements cabinets are available with your choice of integral or continuous tops.
- Integral tops give you the most flexibility as your needs change. They allow you to move or rearrange one cabinet at a time or repurpose the entire room.
- Continuous tops are a great choice also, but they require removing before you can reconfigure your space. New tops can be purchased as your needs change. Back splashes are available as well.
- Chemical resistant HPL or Trespa TopLab+ tops are also available.

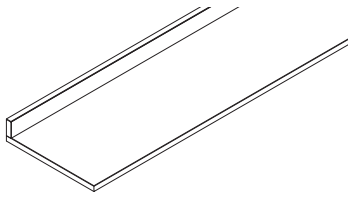
Top Edge Options



C - Edge
3mm PVC
1/8" radius at top bottom and corners



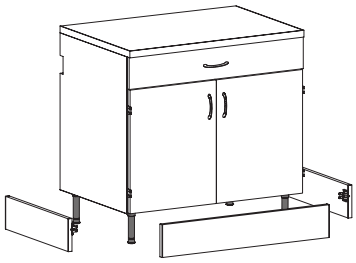
Continuous Top
WS



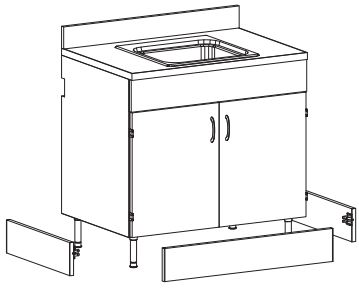
Continuous Top with backsplash **ECTBL**

Optional Toe Kicks

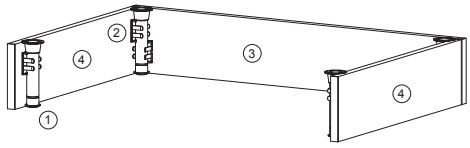
Toe kicks are an option on any Elements base or tall cabinet. They are ordered as individual pieces to accommodate your layout. Toes can be mixed into runs of standard track mounted cabinets, (i.e.: a sink base cabinet where the plumbing is thru the floor, or 30" deep tall storage cabinet). Standard kicks are black TFL with 3 mm PVC. They clip to support legs to provide a finished look.



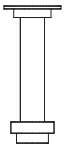
BSCD Cabinet with Toe



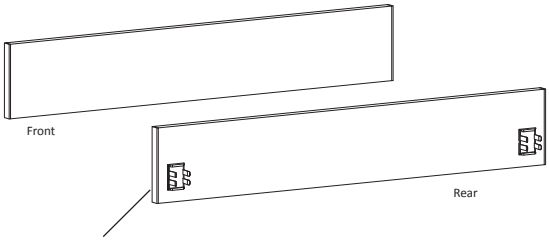
(BSCT) Sink Cabinet with Toe



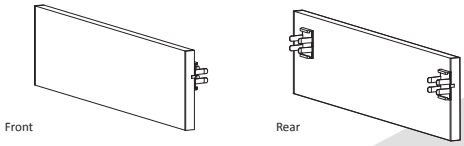
Typical single cabinet toe assembly from rear



1. Toe Kick Leg

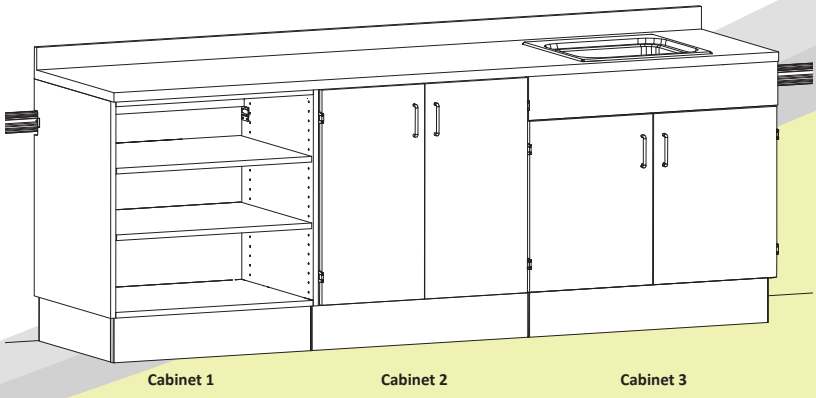


2. Toe Kick Clamp



3. Toe Kick Front

4. Toe Kick Side



Example: The following is required for a typical toe kick assembly on a run of cabinets as shown above:

Cabinet 1: (3) Toe Kick Legs, (1) Toe Kick Side, (1) Toe Kick Front
Cabinet 2: (2) Toe Kick Legs, (1) Toe Kick Front
Cabinet 3: (3) Toe Kick Legs, (1) Toe Kick Side, (1) Toe Kick Front

Notes:

- Toe Kick Side required for each cabinet on either side of the run of cabinets.
- Toe Kick Front required for each cabinet.
- Toe Kick legs required where necessry for attachment of Toe Kick Sides and Fronts.

Making the case for

TRANSITION TRACK-MOUNTED SHELVING & STORAGE COMPONENTS.

Interchangeable and well designed. Transition is a flexible and configurable shelving and storage solution.

Let's make casework furniture!

8 great reasons to choose Transition:

1. **Flexibility.** With a variety of open storage, cupboard storage and upper or base storage options, Transition configurations are endless. Doors are sold separately so that open storage can be turned into cupboard storage in a snap. And don't forget about add-on options such work surfaces, benches and locker accessories!
2. **Ease of use.** Don't want to select individual components? That's alright! Transition has a number of kits already thought out for you. See available kits starting on page 50.
3. **Starter/adder construction.** Allows you to make your casework fit any length of wall or space. Components can be added or removed at any time. Allowing for changes whenever necessary. Adaptable to meet a variety of different needs.
4. **Ability to repurpose.** Kits and components can be moved and interchanged to to be used as needed.
5. **Flooring installation can be wall-to-wall.** Kits and components are elevated off the floor for easy cleaning beneath. Base, upper and tall storage options are available.
6. **You can buy incrementally.** Avoid construction delays and budget constraints. You can phase your projects without being delayed or forced to make last minute concessions. You can always add more as needed.
7. **Thoughtful design by room.** Design spaces based on teacher needs. No cookie cutter design. No wasted money on underutilized casework.
8. **Design.** Transitions is built like furniture with the interior being part of the design. This means that the material you see on the outside is what you get on the inside.

Easy to Reconfigure

Track mounted shelving and mobile furniture make reconfiguring and repurposing simple, quick and clean. Activity boards, marker board and tack board panels are also quick and easy to move on the track.

Readily Available Kits

Transition has a variety of predetermined kits to choose from. Kits are comprised of starter/adder units and can be expanded with additional Transition or track-mounted components and accessories. See available kits starting on page 50.

Compatibility

Mix and match Transition components with anything from the Elements line! Since both Elements and Transition are track-mounted with the same track positioning, Transition is compatible with anything from the Elements line and can be used concurrently with it.

Note: *Only standard/concealed (H3) hinges are available for Transition solutions.*

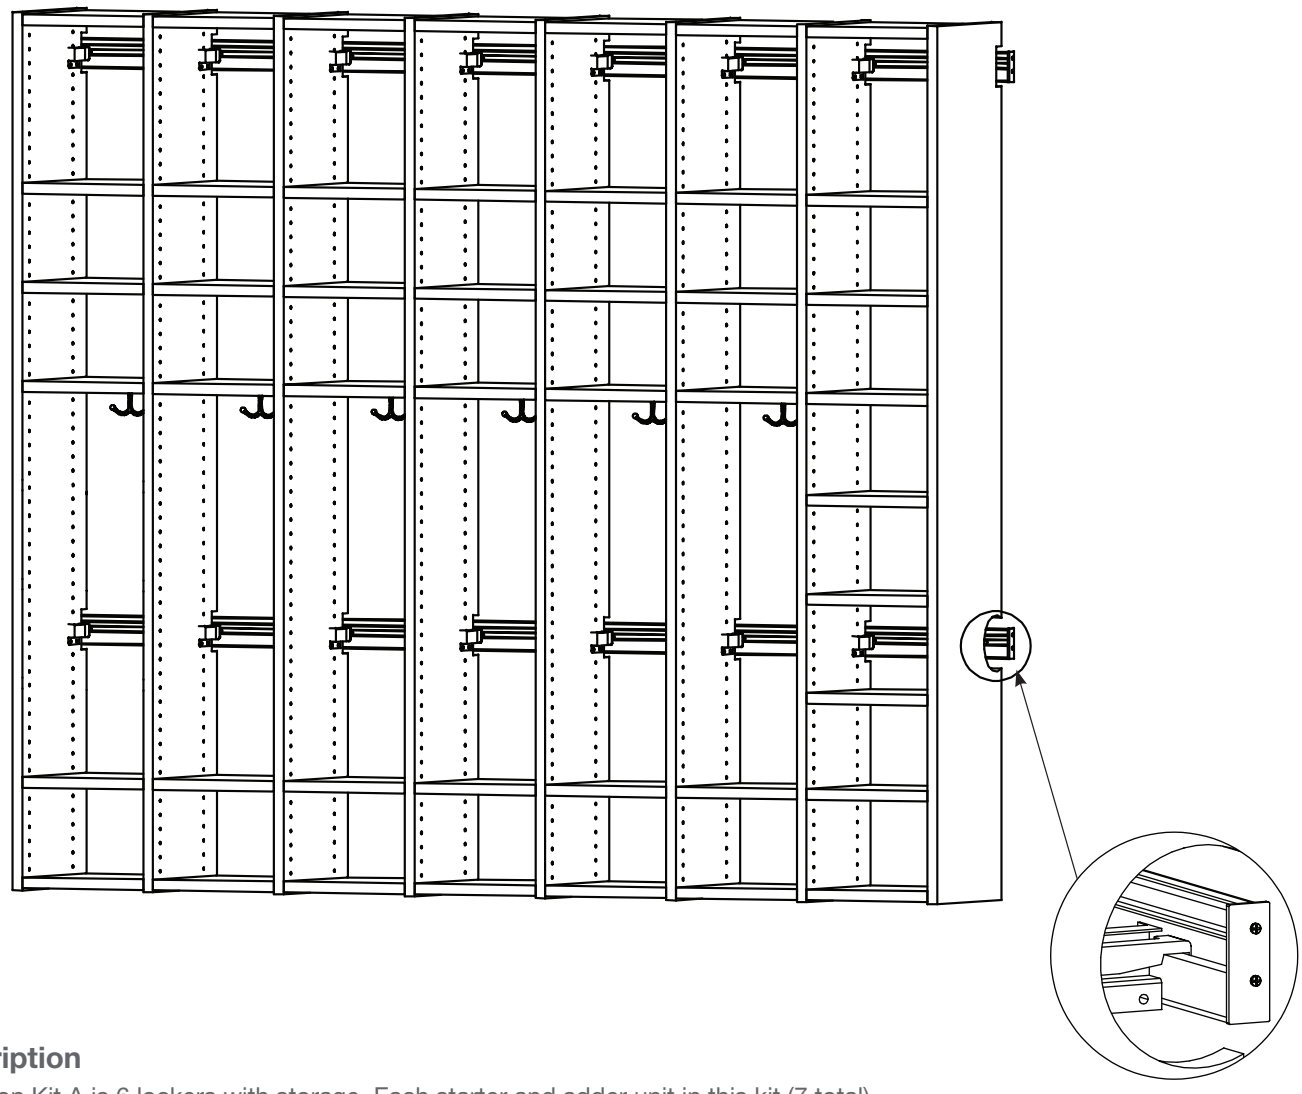
TRANSITION KITS

Transition Kit A (TRN-KIT-A)



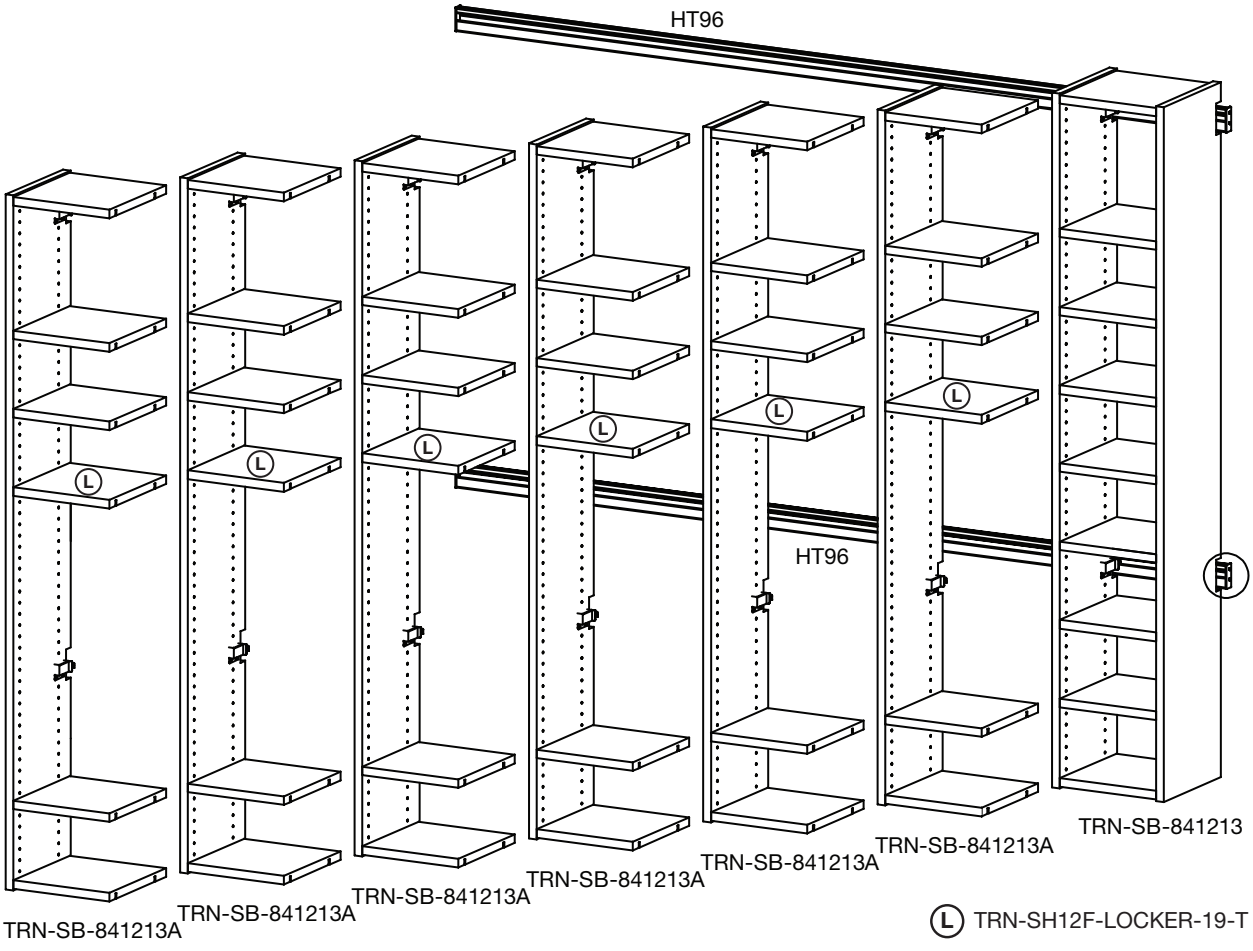
Description

Transition Kit A is 6 lockers with storage. Each starter and adder unit in this kit (7 total) includes 3 fixed and 4 tab cam adjustable shelves.

All panels and shelves are 1” thick engineered wood with melamine finish and PVC banding.

This kit can be expanded with additional track and Transition components.

Transition Kit A - Exploded by Component



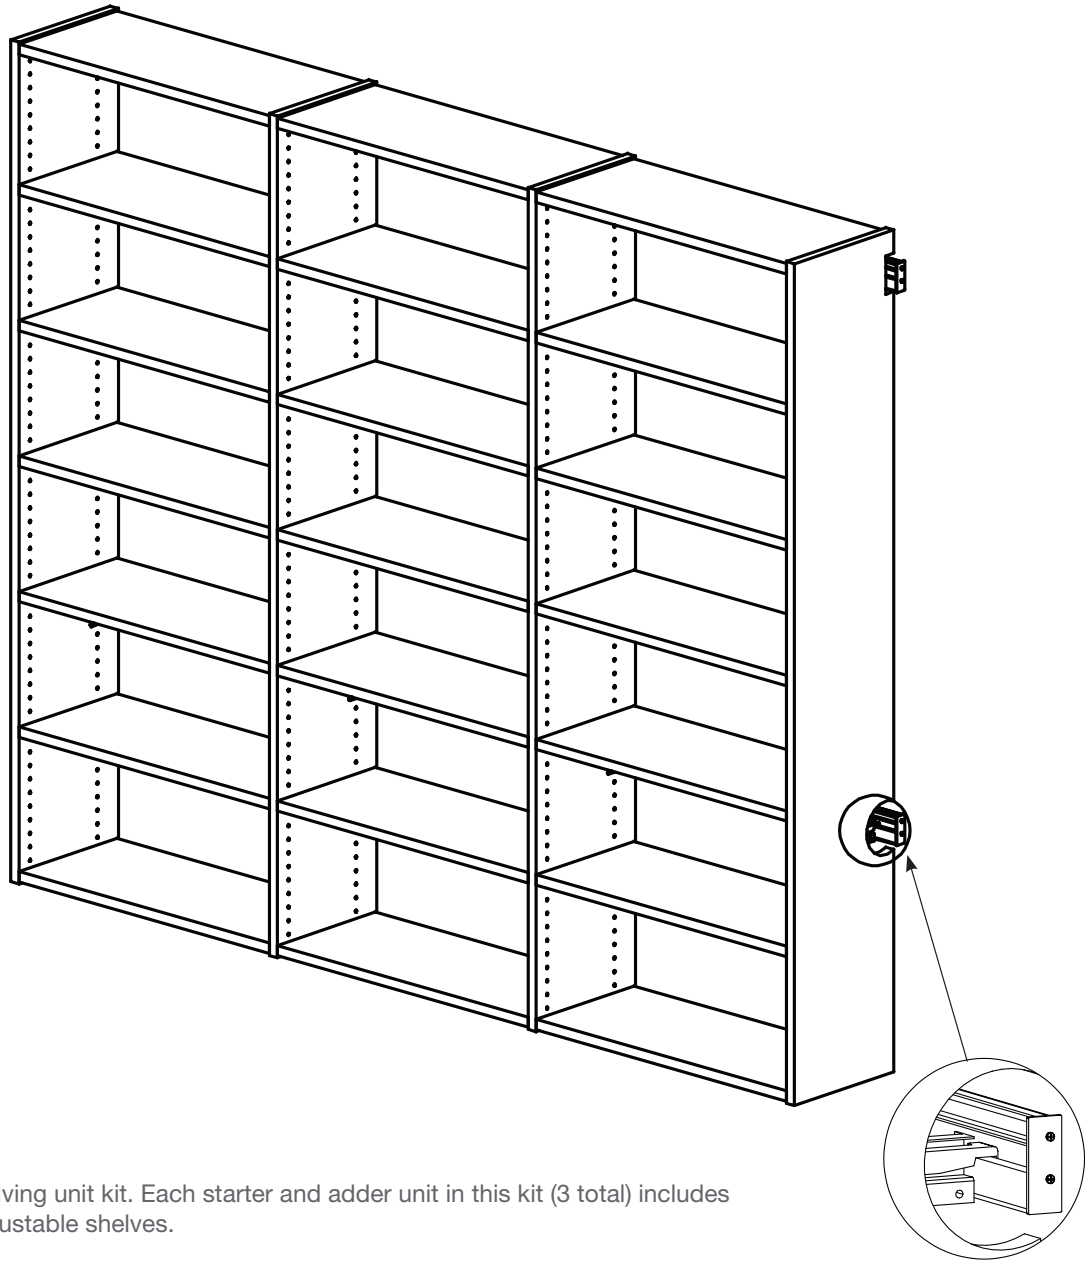
Components included in this Kit

- (2) HT96 - 96” W Horizontal Track
- (4) HTAEC - Horizontal Track End Cap
- (1) TRN-SB-841219-T - 84”H x 14”W x 19”D Starter Unit
- (6) TRN-SB-841219A-T - 84”H x 13”W x 19”D Adder Unit
- (6) TRN-SH12F-Locker-19-T - 12”W x 19”D Locker Shelves with Hooks
- Overall Unit Width: 92”
- Weight: 759 lbs.

Note: Starter unit widths include the width of the shelf plus the width of two end panels (shelf width plus 2”). Adder unit widths include the length of the shelf plus the width of one intermediate panel (shelf width plus 1”). Overall base cabinet height is expressed including the 6” space between the floor and the bottom of the base cabinet.

TRANSITION KITS

Transition Kit A (TRN-KIT-B)



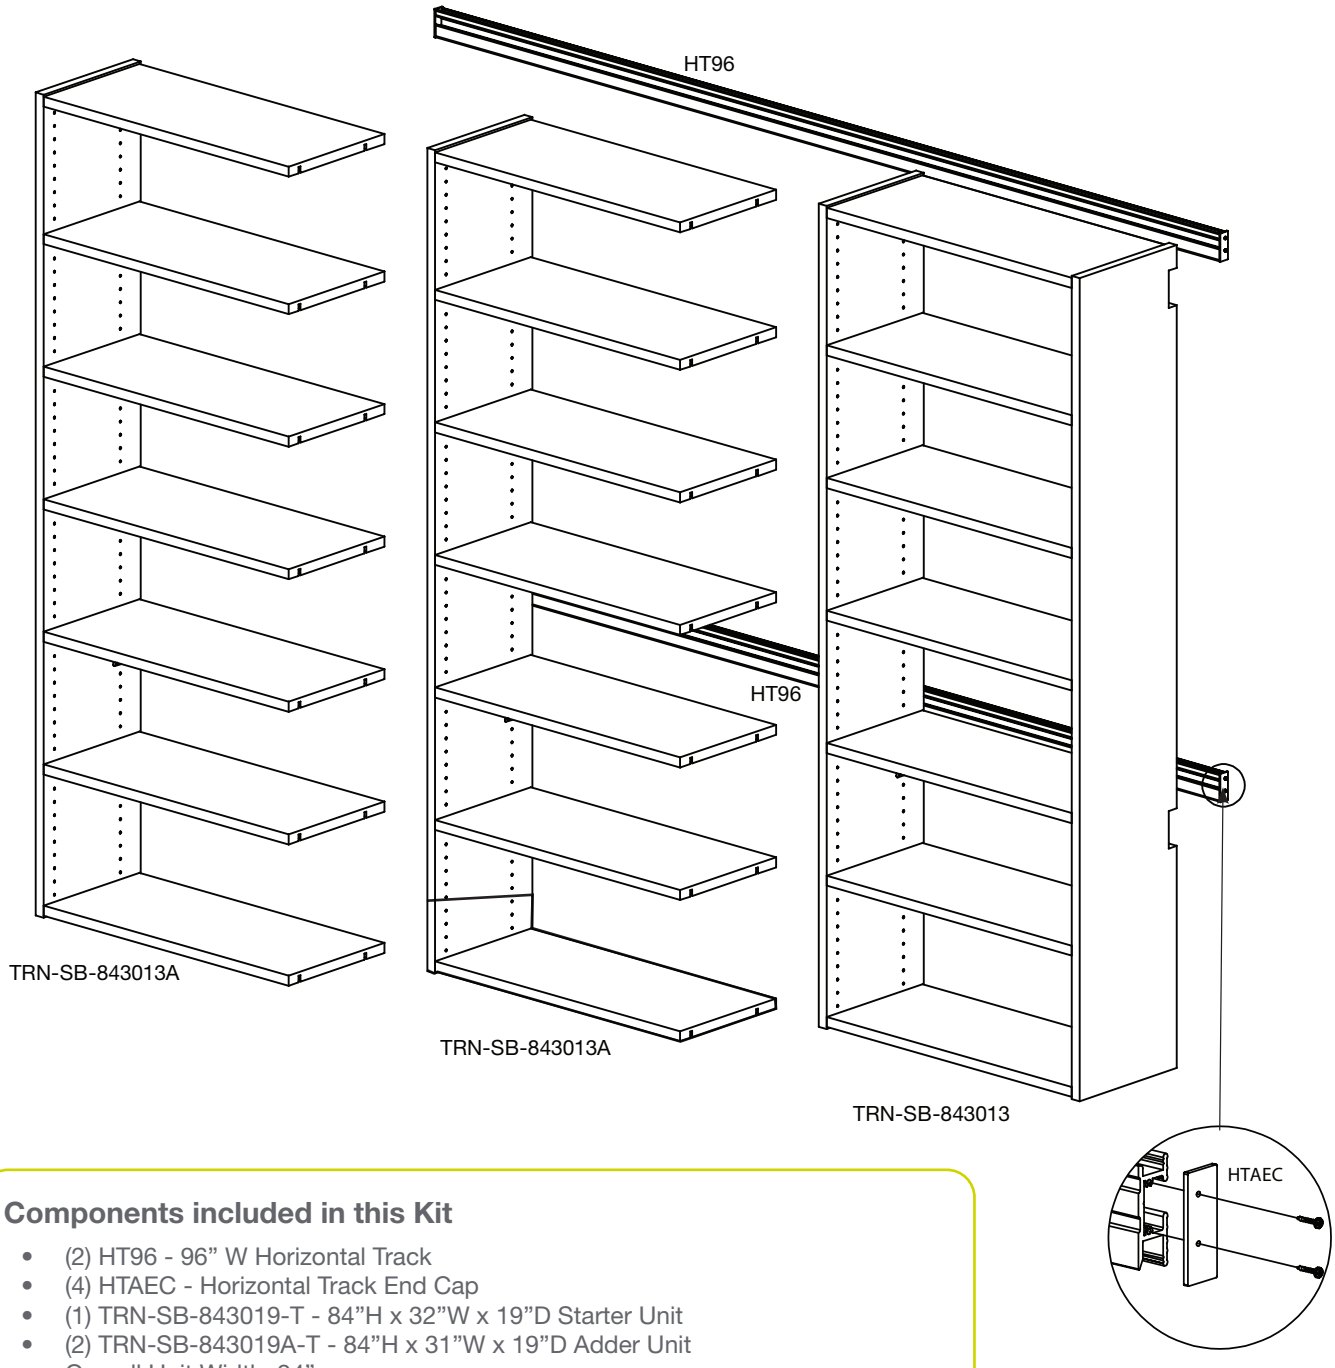
Description

Transition Kit B is a 3 shelving unit kit. Each starter and adder unit in this kit (3 total) includes 3 fixed and 4 tab cam adjustable shelves.

All panels and shelves are 1” thick engineered wood with melamine finish and PVC banding.

This kit can be expanded with additional track and Transitions components.

Transition Kit B - Exploded by Component



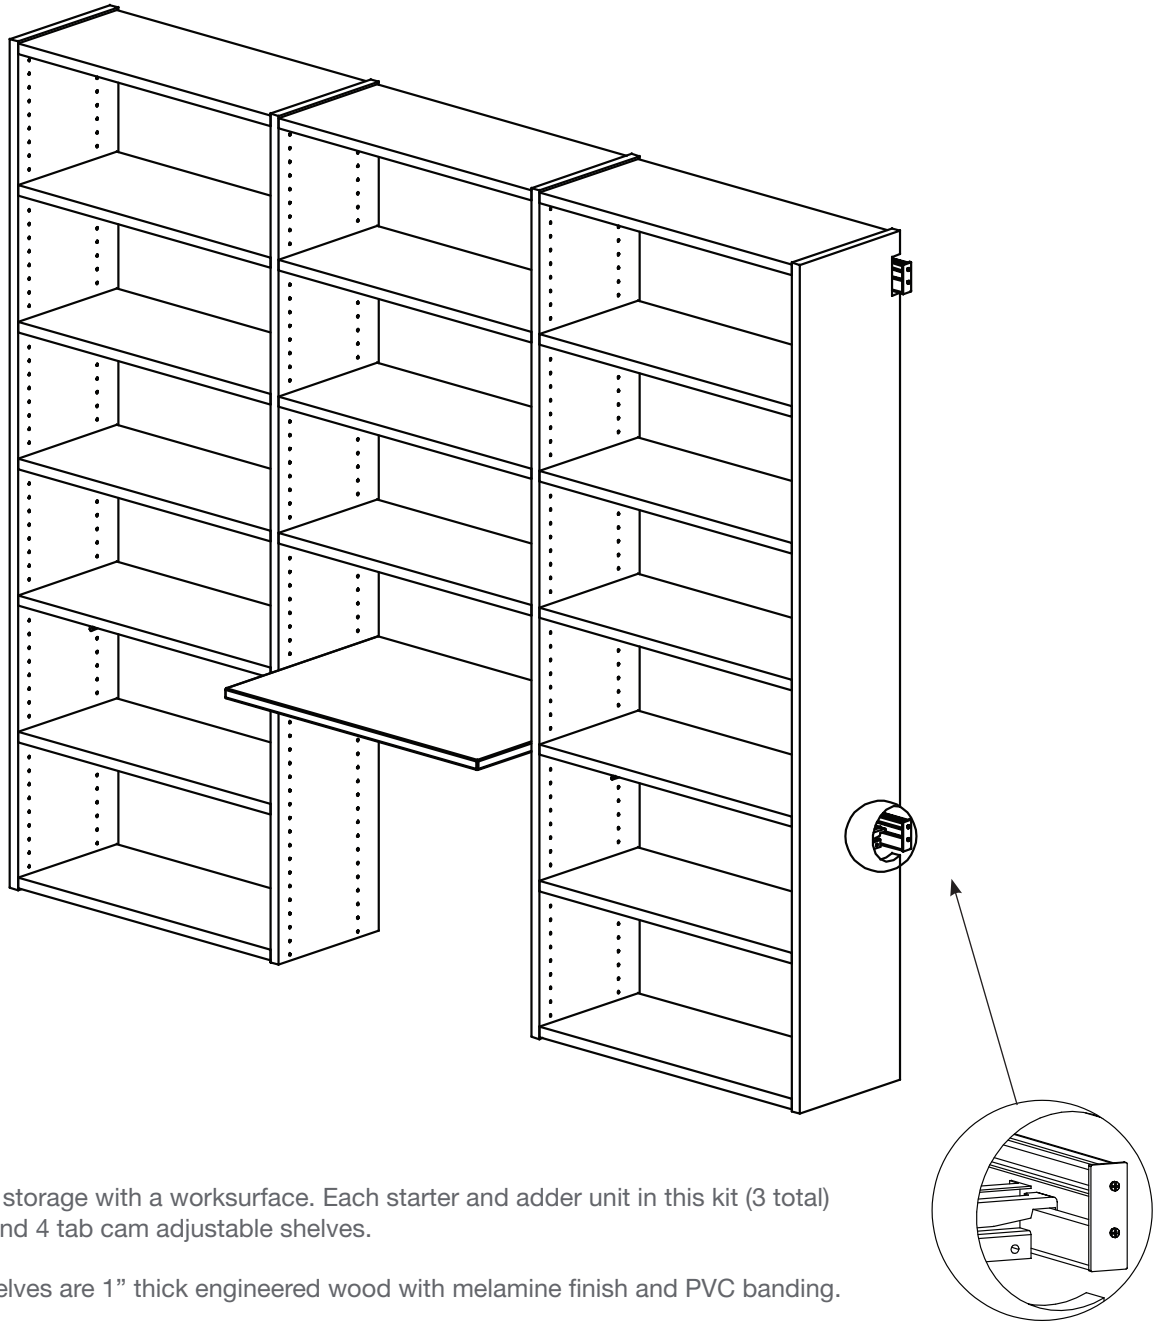
Components included in this Kit

- (2) HT96 - 96” W Horizontal Track
- (4) HTAEC - Horizontal Track End Cap
- (1) TRN-SB-843019-T - 84”H x 32”W x 19”D Starter Unit
- (2) TRN-SB-843019A-T - 84”H x 31”W x 19”D Adder Unit
- Overall Unit Width: 94”
- Weight: 584 lbs.

Note: Starter unit widths include the width of the shelf plus the width of two end panels (shelf width plus 2”). Adder unit widths include the length of the shelf plus the width of one intermediate panel (shelf width plus 1”). Overall base cabinet height is expressed including the 6” space between the floor and the bottom of the base cabinet.

TRANSITION KITS

Transition Kit A (TRN-KIT-E)



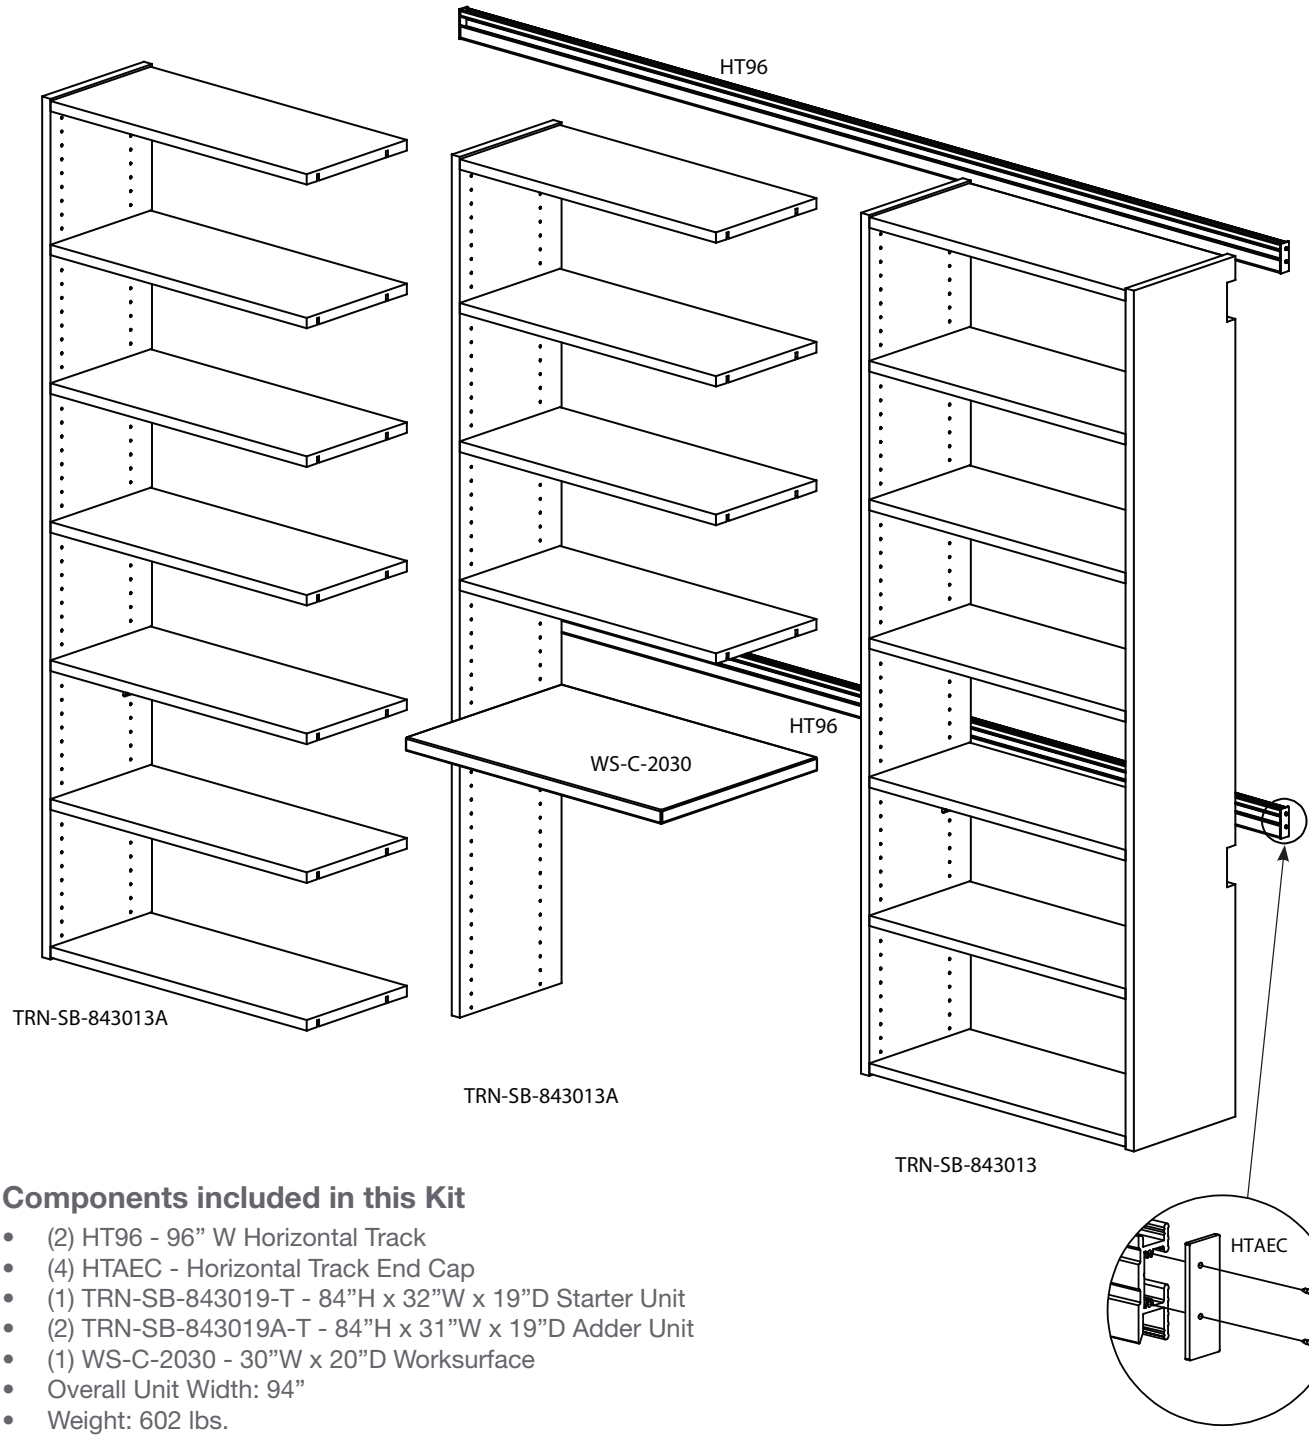
Description

Transition Kit E is storage with a worksurface. Each starter and adder unit in this kit (3 total) includes 3 fixed and 4 tab cam adjustable shelves.

All panels and shelves are 1” thick engineered wood with melamine finish and PVC banding.

This kit can be expanded with additional track and Transition components.

Transition Kit E - Exploded by Component



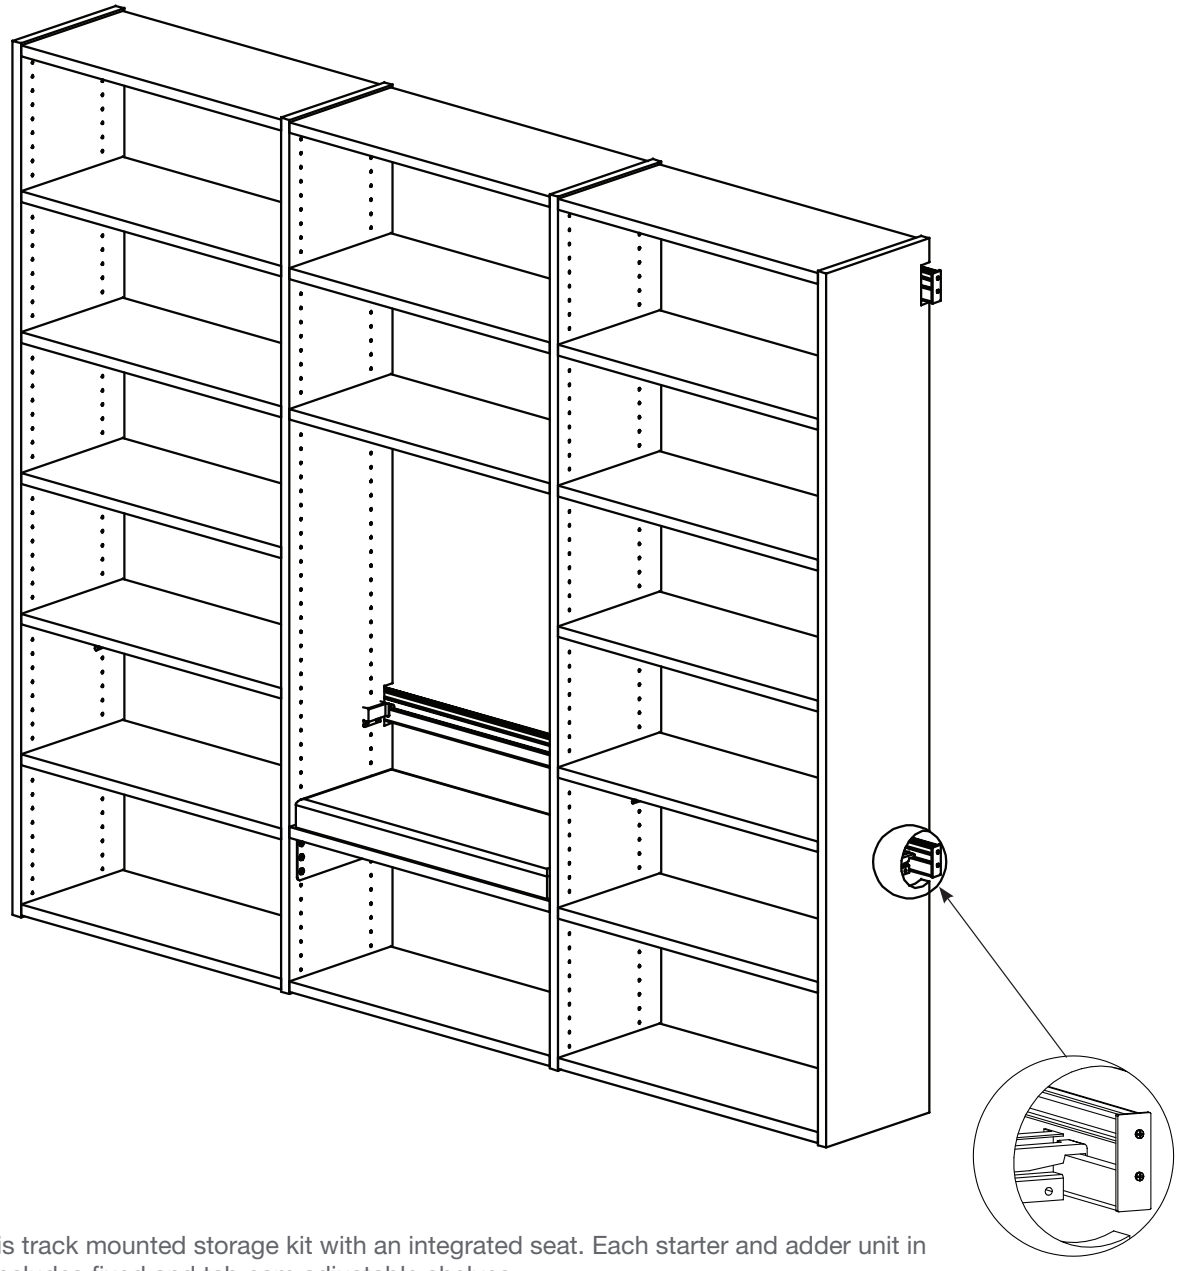
Components included in this Kit

- (2) HT96 - 96” W Horizontal Track
- (4) HTAEC - Horizontal Track End Cap
- (1) TRN-SB-843019-T - 84”H x 32”W x 19”D Starter Unit
- (2) TRN-SB-843019A-T - 84”H x 31”W x 19”D Adder Unit
- (1) WS-C-2030 - 30”W x 20”D Worksurface
- Overall Unit Width: 94”
- Weight: 602 lbs.

Note: Starter unit widths include the width of the shelf plus the width of two end panels (shelf width plus 2”). Adder unit widths include the length of the shelf plus the width of one intermediate panel (shelf width plus 1”). Overall base cabinet height is expressed including the 6” space between the floor and the bottom of the base cabinet.

TRANSITION KITS

Transition Kit A (TRN-KIT-H)



Description

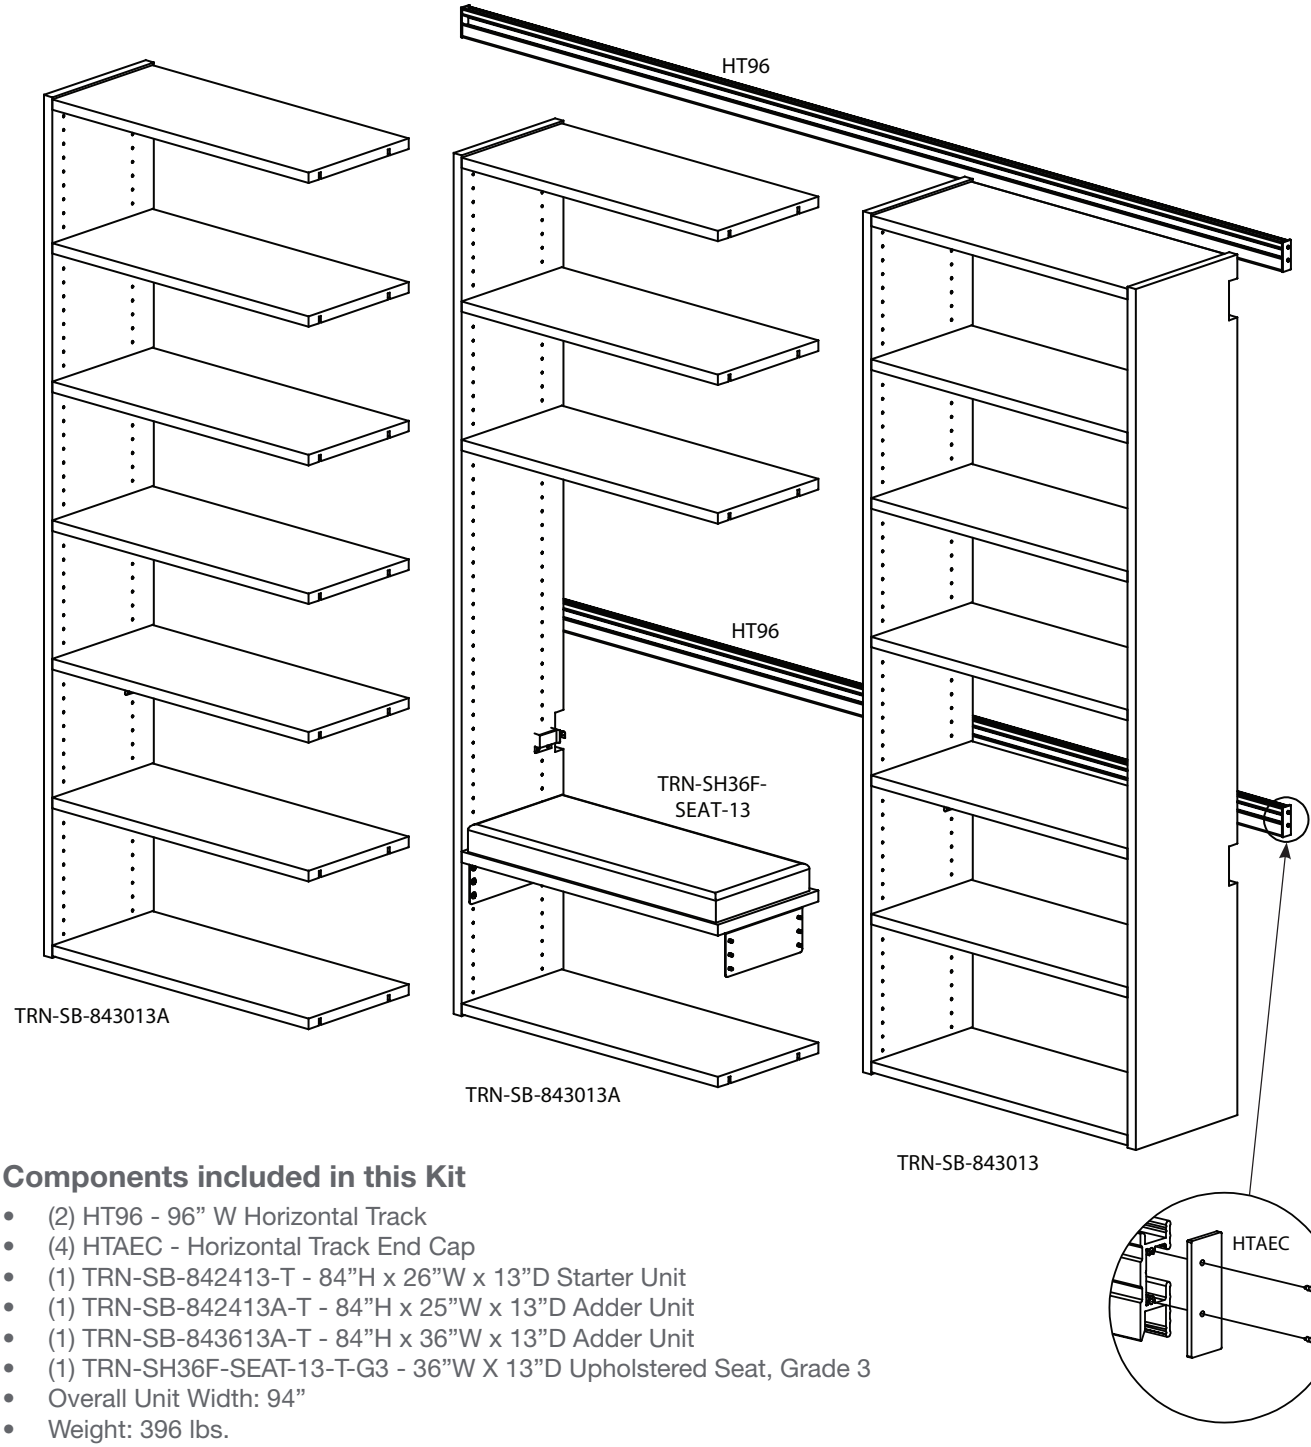
Transition Kit H is track mounted storage kit with an integrated seat. Each starter and adder unit in this kit (4 total) includes fixed and tab cam adjustable shelves.

All panels and shelves are 1” thick engineered wood with melamine finish and PVC banding.

The seat is 37”W and 13”D with an upholstered seat cushion. This kit is priced with Grade 3 fabric.

This kit can be expanded with additional track and Transition components.

Transition Kit H - Exploded by Component



Components included in this Kit

- (2) HT96 - 96” W Horizontal Track
- (4) HTAEC - Horizontal Track End Cap
- (1) TRN-SB-842413-T - 84”H x 26”W x 13”D Starter Unit
- (1) TRN-SB-842413A-T - 84”H x 25”W x 13”D Adder Unit
- (1) TRN-SB-843613A-T - 84”H x 36”W x 13”D Adder Unit
- (1) TRN-SH36F-SEAT-13-T-G3 - 36”W X 13”D Upholstered Seat, Grade 3
- Overall Unit Width: 94”
- Weight: 396 lbs.

Note: Starter unit widths include the width of the shelf plus the width of two end panels (shelf width plus 2”). Adder unit widths include the length of the shelf plus the width of one intermediate panel (shelf width plus 1”). Overall base cabinet height is expressed including the 6” space between the floor and the bottom of the base cabinet.

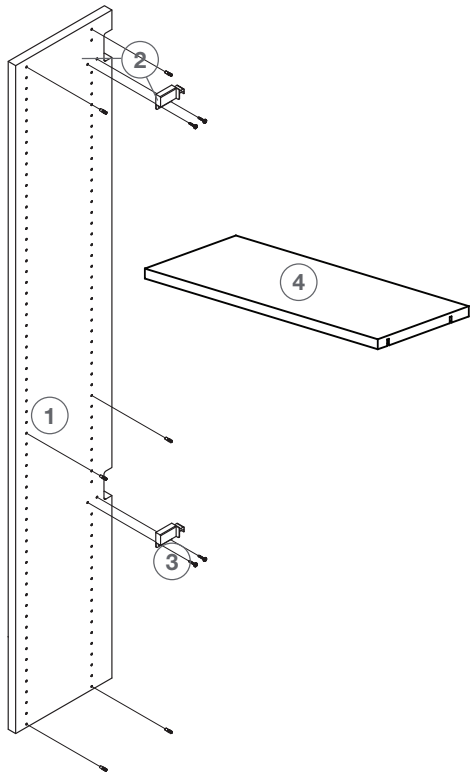
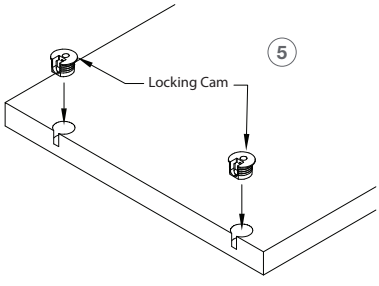
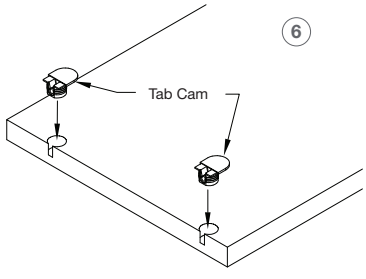
TRANSITION CONSTRUCTION

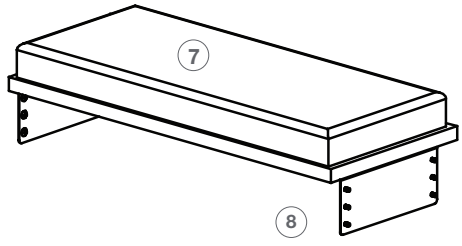
General Construction

1. End and Intermediate Panels are 1” thick; Particleboard core with high-pressure laminate or melamine faces and PVC banding. Each panel includes cut-outs for fitting over mounting track.
2. Pre-drilled holes for shelf cam studs are distributed on 32mm (1-1/4”) increments.
3. Cabinet Hangers are to be mounted to the panel with the Machine screws provided. Two (2) hangers for End Panels and four (4) hangers for Intermediate panels.
4. Shelves are 1” thick; particleboard core and high-pressure laminate or melamine faces with PVC front edge. Bottom surface of shelves are pre-drilled for the insertion of locking or tabbed cams.
5. Fixed Shelves should be fitted with Locking Cams.
6. Adjustable Shelves should be fitted with Tab Cams.
7. Shelf Seat is a 1” thick shelf base with a fully upholstered seat cushion. Seat cushion upholstery is availabe in Grade 1 thru Grade 9 and COM fabric.
8. Metal Seat Bracket for mounting to panels is integral in the Shelf Seat assembly.









Making the case for

TEMPO MUSIC STORAGE.

Available in a variety of sizes to accommodate storage of several different shapes and sizes of instruments.

Let's orchestrate your instrument storage!

5 great reasons to choose tempo

1. **Design.** Built like furniture, meaning the insides are part of the design instead of another material, what you see on the outside is what you get on the inside.
2. **Flooring installation can be wall-to-wall.** Finished bottoms with adjustable glides make it easy to install over existing flooring.
3. **Storage options.** Store your instruments in open units, or choose to add wire grille doors for visibility with security, or solid HPL doors to keep items secure and hidden when not in use.
4. **Build it here.** We hand craft everything right here in Shelby, MI reducing emissions.
5. **Lasting value** You can count on a quality experience with mediatechnologies from design through delivery and for years thereafter.

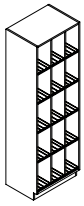
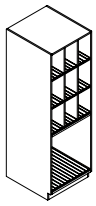
Tempo MUSIC CABINETS



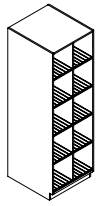
SMC-81514
Compartment Size:
15 - 8"w x 14.625"h

Width	27.50"
Depth	19.25", 29.25"
Height	85.625"
19.25D	*Holds clarinets, flutes, or piccolos, or oboes*
29.25D	*Holds 15 clarinets, flutes, or piccolos, or oboes, soprano saxophones or trumpets*



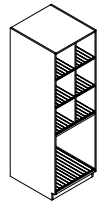
SMC-981412514
Compartment Sizes:
9 - 8"w x 14.625"h
1 - 25.5 "w x 25"h

Width	27.50"
Depth	29.25"
Height	85.625"
Holds 9 clarinets, flutes, and 1 French horn, alto horn or snare drum	



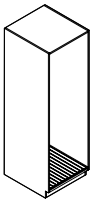
SMC-101214
Compartment Size:
10 - 12.375"w x 14.625"h

Width	27.50"
Depth	19.25", 29.25"
Height	85.625"
19.25	*Holds 10 trumpets, cornets or alto saxophones*
29.25D	*Holds 10 trumpets, cornets or alto saxophones*



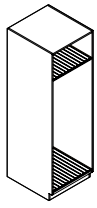
SMC-6121412525
Compartment Sizes:
6 - 12.375"w x 14.625"h
1 - 25.50"w x 25"h

Width	27.50"
Depth	19.25", 29.25"
Height	85.625"
19.25D	*Holds 6 trumpets, cornets or alto saxophones and 1 French horn, altro horn or snare drum*
29.25D	*Holds 6 trumpets, cornets or alto saxophones and 1 French horn, altro horn or snare drum*



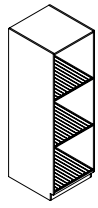
SMC-12578
Compartment Size:
1 - 25.50"w x 78.50"h

Width	27.50"
Depth	29.25"
Height	85.625"
Holds 1 string bass, contra bass clarinet or bass drum or general storage use	



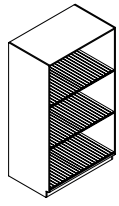
SMC-1251412561
Compartment Sizes:
1 - 25.50" w x 14.625"h
1 - 25.50" w x 61.875"h

Width	27.50"
Depth	29.25"
Height	85.625"
Holds 1 cello or guitar and 1 snare drum or general storage use	



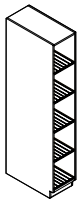
SMC-32525
Compartment Size:
3 - 25.50"w x 25"h

Width	27.50"
Depth	29.25", 39.25"
Height	85.625"
29.25	*Holds 3 French horns, alto horns or snare drums or mellophone*
39.25D	*Holds 3 baritone horns, euphoniums or mellophones*



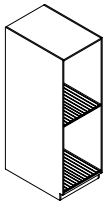
SMC-34623
Compartment Size:
3 - 46.50"w x 23.75"h

Width	48.50"
Depth	29.25"
Height	85.625"
Holds 3 baritone saxophones, bass clarinets, bassoons, snare drums or use for general storage	



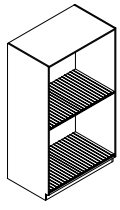
SMC-51214
Compartment Size:
5 - 12.375"w x 14.625"h

Width	14.375"
Depth	29.25"
Height	85.625"
Holds 5 trumpet, cornets or alto saxophones	



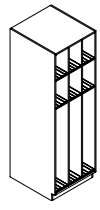
SMC-22537
Compartment Size:
2 - 25.50"w x 37.375"h

Width	27.50"
Depth	29.25"
Height	85.625"
Holds 2 bass drums, field drums or snare drums	



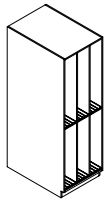
SMC-24637
Compartment Size:
2 - 46.50"w x 37"h

Width	48.50"
Depth	29.25"
Height	85.625"
Holds 2 Tubas, Sousaphones, Tri-toms, or general storage	



SMC-68143848
Compartment Size:
6 - 8"w x 14.625"h
3 - 8"w x 48.25"h

Width	27.50"
Depth	29.25"
Height	85.625"
Holds 3 guitars and 6 clarinets, flutes or oboes	

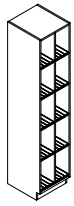


SMC-6836
Compartment Size:
6 - 8"w x 38.25"h

Width	27.50"
Depth	39.25"
Height	85.625"
Holds 6 acoustic guitars	

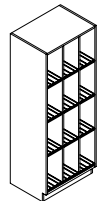
SMC-5814
Compartment Size:
5 - 8"w x 14.625"h

Width	10"
Depth	19.25"
Height	85.625"
Holds 5 clarinets, flutes, piccolos, or oboes	



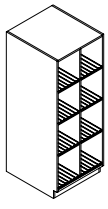
SMC-10814
Compartment Size:
10 - 8"w x 14.625"h

Width	18.75"
Depth	19.25"
Height	85.625"
Holds 10 clarinets, flutes, piccolos, or oboes	



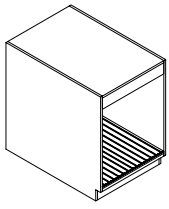
SMC-12814
Compartment Size:
12 - 8"w x 14.625"h

Width	27.50"
Depth	19.25", 29.25"
Height	69.75"
19.25D	*Holds 12 clarinets, flutes, piccolos, or oboes*
29.25D	*Holds 12 clarinets, flutes, piccolos, or oboes, soprano saxophones or trumpets*



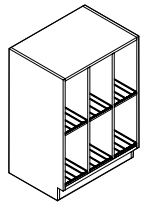
SMC-81214
Compartment Size:
8 - 12.375"w x 14.625"h

Width	27.50"
Depth	29.25"
Height	69.75"
Holds 8 trumpets, cornets or alto saxophones	



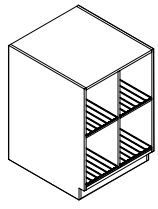
SMC-12525
Compartment Size:
25.50"w x 25"h

Width	27.50"
Depth	29.25", 39.25"
Height	38.125"
29.25D	*Holds 1 French horn, alto horn, snare drum or mellophone*
39.25D	*Holds 1 baritone, euphonium or mellophone*



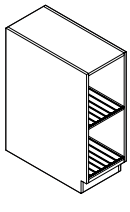
SMC-6814
Compartment Size:
6 - 8"w x 14.625"h

Width	27.50"
Depth	19.25", 29.25"
Height	38.125"
19.25D	*Holds 6 clarinets, flutes, piccolos or oboes*
29.25D	*Holds 6 clarinets, flutes, piccolos or oboes, soprano saxophones or trumpets*



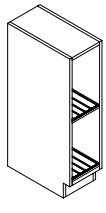
SMC-41214
Compartment Size:
4 - 12.375"w x 14.625"h

Width	27.50"
Depth	29.25", 39.25"
Height	38.125"
29.25D	*Holds 4 trumpets, cornets or alto saxophones*
39.25D	*Holds 4 trombones, bassoons, violins, violas, bass/alto clarinets or tenor saxophones*



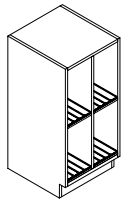
SMC-21214
Compartment Size:
2 - 12.375" w x 14.625"h

Width	14.375"
Depth	29.25"
Height	38.125"
Holds 2 trumpets, cornets or alto saxophones	



SMC-2814
Compartment Size:
2 - 8"w x 14.625"h

Width	10"
Depth	19.25"
Height	38.125"
Holds 2 clarinets, flutes, piccolos or oboes	



SMC-4814
Compartment Size:
4 - 8"w x 14.625"h

Width	18.75"
Depth	19.25"
Height	38.125"
Holds 4 clarinets, flutes, piccolos or oboes	

Tempo MUSIC CABINETS

General Description
Music Cabinets – High-Pressure Laminate:

Side panels, vertical dividers, back, top and optional doors are constructed of 3/4 inch thick particleboard. Interiors and exteriors are standard high pressure laminate. Exposed edges are PVC banding, .3mm thickness.

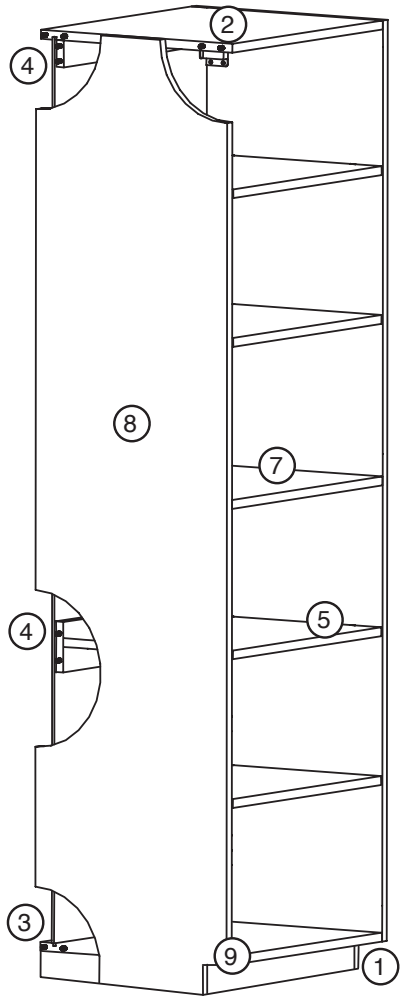
All shelves are fixed. Shelves are constructed of ¾ inch thick particleboard. Surfaces are standard high pressure laminate. Shelf top surface and front edge receive a tough, non-skid polyurea coating. All full width shelves receive a metal support keel to prevent sag.

Cabinets receive leveling glides.

Optional straight grille or HPL compartment doors available, add –SC to end of model number for straight grille doors or –HC for HPL compartment doors.
Straight grille door comes with five-knuckle hinge. Hinge options for HPL compartment doors include the following:

H1 - Five knuckle, 14 gauge steel, black epoxy powder coated or plated matte nickel finish, commercial grade, overlay type, ANSI-BHMA A-156.9-2001 Grade 1 standards.
H2 – Three Knuckle, black epoxy powder coated or matte nickel finish, commercial grade, overlay type, three-way adjustable, self closing, ANSI-BHMA Grade 1 standards.
H3 – Concealed hinge, steel, nickel-plated finish, self closing and three-way adjustable, self closing.

A lock option for HPL compartment door is available.
Straight grille doors are black.



General Construction:

1. Cabinet construction available with 3/4” thick engineered wood side panels, tops, vertical dividers and shelves. Cabinet bottoms are 1” thick engineered wood. Cabinets include levellers.
2. Dowel construction meets AWI Premium Standards.
3. 1/4” thick cabinet backs.
4. Dowel pinned structural 3/4” stringers add rigidity.
5. Shelves are fixed.
6. Shelf surfaces are high pressure laminate.
7. Shelf top surface and front edge receive a non-skid polyurea finish.
8. High pressure laminate box finish is applied to all cabinet faces. (Note: Toes are left unfinished on base and tall cabinets).
9. Box edge (including bottom edge of cabinets) will be nominal .5mm (.020) PVC.
10. Front finish is applied to compartment doors. Special veneers and exotic woods available upon request.
11. Front edge will be 3mm PVC for HPL finished fronts. Other edge options are available. Contact your sales representatives for details.

Making the case for

DEFINITIONS CASEWORK.

Well designed, and well built.
Our Definitions Line of casework is beautiful and built to last.

Let's make casework furniture!

5 great reasons to choose Definitions

1. **Design.** Definitions is built like furniture, meaning the insides are part of the design instead of another material, what you see on the outside is what you get on the inside.
2. **Flooring installation can be wall-to-wall.** Finished bottoms with adjustable glides make it easy to install over existing flooring.
3. **Performance** over the long haul in high abuse environments like cafeterias, makerspaces and STEM/STEAM labs.
4. **Build it here.** We hand craft everything right here in Shelby, MI reducing emissions.
5. **Lasting value** You can count on a quality experience with mediatechnologies from design through delivery and for years thereafter.

Returns	**2020, 2024, 2420, 2424**

ECTBL-C
Rectangular Work Surface with backsplash

Width	30", 36", 42", 48", 54", 60", 72", 84", 96", 120", 144"
Depth	**20", 24"**

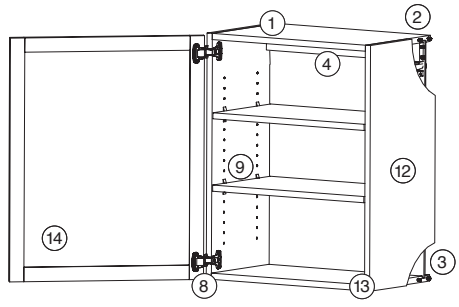
DEFINITONS CONSTRUCTION

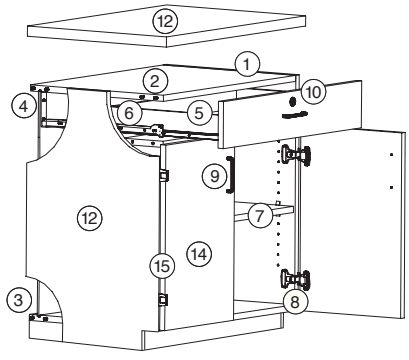
1. Cabinet construction available with 3/4" thick engineered wood side panels, sub-tops, vertical dividers and shelves. Base cabinet bottoms and all adjustable shelves over 36" in length are 1" thick engineered wood. Base cabinets do not include levellers.
2. Dowel construction meets AWI Premium Standards.
3. 1/4" thick cabinet backs.
4. Dowel pinned structural 3/4" stringers add rigidity.
5. Full 4-sided drawer boxes use:
   Veneer Finish Cabinets - Hardwood veneer core plywood.
   Laminate Finish Cabinets - 3/4" thick material with Classic Maple TFL finish and PVC edges.
6. Drawer Slides are available in two options:
   A: 3/4 extension slide B: Full extension slide
7. Shelves are adjustable on 32mm (1-1/4") increments.
8. Available Standard Hinges are shown on the next page .
9. Available Standard Pulls are shown on the next page.
10. Lock option:
    Cam locks are chrome finished 5 disc dead bolt locks. The lock core is removable with a control key, permitting owner to easily change lock arrangements without tools.
11. Tops are available in 2 options:

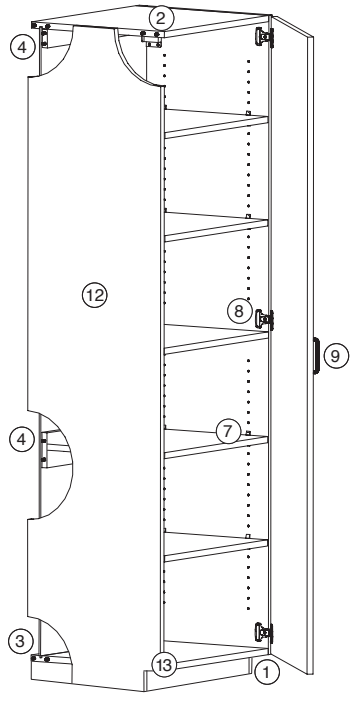
    Standard Top - Cabinet receives individual modular top constructed of 1-1/4" thick engineered wood with .050" high pressure laminate (HPL) and a phenolic backer sheet. Edges are 3mm PVC on front and .5mm (.020) PVC on sides and back.
    Continuous Top - Cabinet will be constructed with a sub-top only. Continuous Tops are ordered as a separate line item. *Other tops are available (Epoxy, Solid Surface, etc.)*

12. Box Finish is applied to all cabinet faces.
    Available in 4 options:
    TFL - Thermally Fused Laminate.
    HPL - High Pressure Laminate.
    Veneer Oak - Grade AA plain sliced oak veneers on 3/4" industrial engineered wood core.
    Veneer Maple - Grade AA plain sliced maple veneers on 3/4" industrial engineered wood core.
    (Note: Toes are left unfinished on base and tall cabinets).
13. Box Edge (including bottom edge of base cabinets), will be nominal .5mm (.020) PVC.
14. Front Finish is applied to cupboard doors and drawer fronts.
    Available in 5 options:
    TFL - Thermally Fused Laminate
    HPL - High Pressure Laminate
    Veneer Oak - Grade AA plain sliced oak veneers on 3/4" industrial engineered wood core.
    Veneer Maple - Grade AA plain sliced maple veneers on 3/4" industrial engineered wood core.
    Framed Doors - Only available for doors.
    Special veneers and exotic woods available upon request.
15. Front Edge will be 3mm PVC for TFL and HPL Finished Fronts. Veneer fronts will receive 3mm wood in coordinating finish. Other edge options are available. Contact the factory for details.

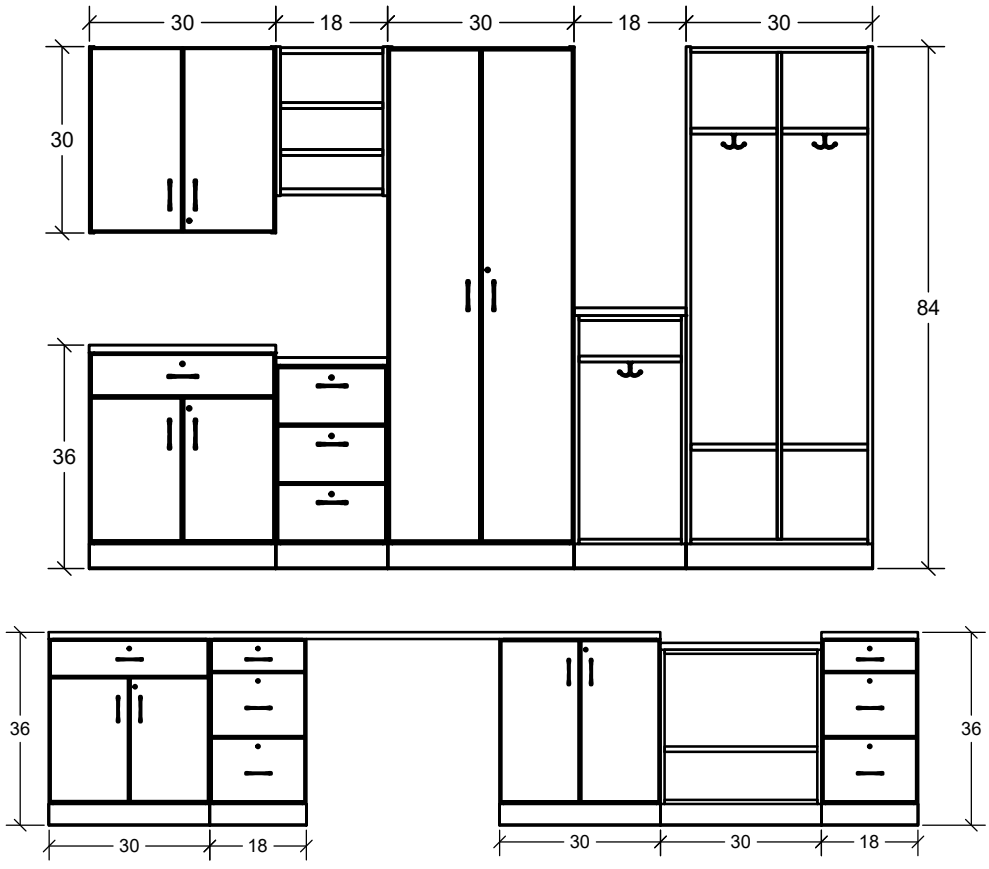
STATEMENT OF LINE





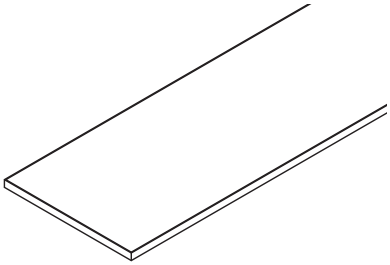


Elevation

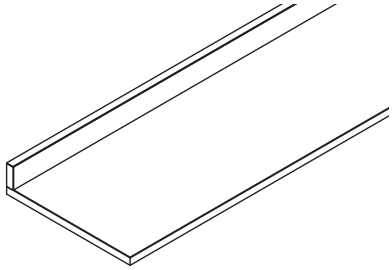


Integral vs Continuous Top

- Cabinets are available with your choice of integral or continuous tops.
- Integral tops give you the most flexibility as your needs change. They allow you to move or rearrange one cabinet at a time or re-purpose the entire room.
- Continuous tops are a great choice also, but they require removing before you can reconfigure your space. New tops can be purchased as your needs change. Back splashes are available as well.
- Chemical resistance HPL, Trespa TopLab+ and Solid Surface tops are also available.

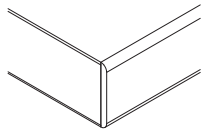


Continuous Top
ECTL



Continuous Top with backsplash **ECTBL**

Top Edge Options



C - Edge
3mm PVC
1/8” radius at top bottom and corners

DEFINITIONS DISPLAY TILES

STTAB
Tackable Fabric Wrapped Acoustic Board, Frameless

AJLT-2P1UC1O-120-B	120", black

BACKSTOP
On-Surface Power
Configurations: 2 AC / 1 Dual USB or 3 AC and 1 Dual USB
Mounting bracket kit includes several mounting options for use under and above work surfaces.
Smart charging capability recognizes devices and when to shut off during peak loads. Availbale in white/grey and black. 72" cord

2 AC/1 Dual USB

ABTP-2P2U-72-W	72" white/grey
ABTP-2P2U-72-B	72", black

3 AC/1 Dual USB

ABTP-3P2U-72-W	72" white/grey
ABTP-3P2U-72-B	72", black

SPARKY
In-Surface Power
Configurations: 1 AC / 1 USB / 1 WCS
15 Amp Power Simplex
USB Port is 2 amps
5 Watt Qi Charging Coils
Compatible with all Qi enabled smart phones and devices
Available in white or black with 72" or 120" cord.

1 AC/1 USB/1 WCS

SPK-1P1U1WCS-72-W	72" white
SPK-1P1U1WCS-72-B	72", black
SPK-1P1U1WCS-120-W	120", white
ACSPK-1P1U1WCS-120-B	120", black

TOT03
Tote Bin 3"D
Co-polymer polypropylene tote.
Suitable for use with rails or in cubbies. Available in 10 colors.
3"H x 12.25"W x 15.25"D
Tote Rails (sold separately)

TOTR-PR-T15	Pair of tote rails
TOTR-LH-T15	Left hand tote rail
TOTR-RH-T15	Right hand tote rail

TOT06
Tote Bin 6"D
Co-polymer polypropylene tote.
Suitable for use with rails or in cubbies. Available in 10 colors.
6"H x 12.25"W x 15.25"D
Tote Rails (sold separately)

TOTR-PR-T15	Pair of tote rails
TOTR-LH-T15	Left hand tote rail
TOTR-RH-T15	Right hand tote rail

ACPU-CS-10
CPU Holder
Under desk mounting kit
Width adjusts from 5.25" to 9.25"
Height adjusts from 15.375" to 21"

ACPU-CS-11
Rotating CPU Holder
Under desk mounting kit
Width adjusts from 5.25" to 9.25"
Height adjusts from 15.375" to 21"
Rotates 180 degrees

Things to Consider:

- Elements and Transition run on the same mounting tracks and are able to be integrated together.
- Elements products are sold as module units.
- Transition products can be purchased in kits (product groupings), individual products and individual product components.
- Elements products have backs and Transition products are open in the back to expose the wall.
- Elements and Transition can be supplemented with supporting plastic feet beneath them.
- New school construction can acheive reduced product life cycle costs and in some occasions initial cost savings.
- We build our casegoods like furniture. This means that the interior of the casework will be finished in the same way as the outside.
