

Continuing Education Unit Courses

offered by mediatechnologies®

Title: Designing Highly Flexible Education Spaces

Learning Objective 1: Understand the benefits of designing highly flexible and agile school spaces that can be reconfigured easily to serve multiple purposes.

Learning Objective 2: Learn key design principles and considerations that allow school spaces to be used for multiple purposes.

Learning Objective 3: Understand how traditionally inflexible spaces can be converted using key elements such as furnishings and casework to allow for more flexibility.

Learning Objective 4: Understand how modularity promotes greater sustainability and value at a lower cost.

AIA Course Code: MTCEU01
Learning Unit: 1.0 AIA Learning Unit
Expiry Date: 04/12/2025
IDCEC Course Code : CEU-116094
Learning Unit: 0.1 IDCEC Continuing Education Unit
Expiry Date : 02/28/2024
Type of Presentation : In person
Subject Code Primary : 3. Interior Design Education
Subject Code Secondary : 1. Instruction
Length (Hours) : 1
Designation : Health, Safety, Welfare

Title: Creating Highly Accessible, Future-Ready Media Spaces

Learning Objective 1: Understand how shifting roles, uses, and technologies are changing the physical composition of media spaces.

Learning Objective 2: Understand what UDL is, why it's important, and how it applies to the design of modern media centers.

Learning Objective 3: Learn how the use of proper materials and methods can help create highly accessible, future-ready media spaces.

Learning Objective 4: Identify the key elements of a well-designed, future-ready media space that meets the needs of all learners.

IDCEC Course Code : CEU-110156

Learning Unit: 0.1 IDCEC Continuing Education Unit

Expiry Date : 11/30/2023

Type of Presentation : In person

Subject Code Primary : 3. Interior Design Education

Subject Code Secondary : 1. Instruction

Length (Hours) : 1

Designation : Health, Safety, Welfare
